

MG-80

3 DIGIT MECHANICAL METER - PA

MG-80 (NBR) Code: 32000-CF00000

MG-80V (Viton®) Code: 32070-CF00000

- Flow rates; from 10 to 90 l/min
- Operating pressures up to 3.5 bar
- Actuation: Nutating disc
- Display Analogue:
 - Partial 3 digits (999 litres) Resettable,
 - Cumulative History 6 digits Permanent
- Glass filled polyamide (PA) body
- Flameproof chamber
- Viscosities up to 70 cSt
- Accuracy $\pm 1\%$ or better with proper installation
- Liquid temperatures from -10 to 60 °C
- F 1" BSP connections
- Choice of 3 inlet & 2 Outlet flow directions
- Suited to;

Hydrocarbons: Diesel, petrol & paraffin

Water, olive oil, wine & clear juices

Clear fertiliser

The MG-80 is constructed to the highest standards as set out by EC directive regulations and other accreditation bodies. Tighter measuring chamber tolerances ensure that the meter is capable of repeatedly delivering higher accuracies when compared to its competitors. All materials used in the construction of the meter are of the highest quality and physiologically safe
