

MGE-110

OVAL GEAR ELECTRONIC METER

Code: 32600-CF00000

- Flow rates;
 - Diesel from 5 to 110 l/min
 - Oils from 5 to 80 l/min
- Operating pressures up to 50 bar
- Actuation: Oval gears
- Display Digital:
 - Partial 5 digits (99 999 litres) Resettable,
 - Cumulative History 5 digits Permanent
- Aluminium body, with Ryton gears
- Viscosities up to 2000 cSt
- $\pm 0.5\%$ Accuracy or better with proper installation.
- Liquid temperatures from -10 to 60 °C
- 1" Gm connections
- Face rotation for 4 different flow directions
- Flanged to connect directly to IRON and AG pumps
- Suited to diesel and oils

The MGE-110 is constructed to the highest standards as set out by EC directive regulations and other accreditation bodies. Tighter measuring chamber tolerances ensure that the meter is capable of repeatedly delivering higher accuracies when compared to its competitors. All materials used in the construction of the meter are of the highest quality.
